

Shreya Agrawal

Product Designer | UX & UI | Service Design

Mumbai, India • 9372979720 • shreya.u22159@cept.ac.in • [Linkedin](#) • [Portfolio](#)

Product Designer crafting intuitive, user-centered experiences across digital and physical products. Focused on research-driven design, usability, and meaningful problem-solving. Adapting to AI tools for rapid ideation while maintaining a strong emphasis on critical thinking.

Areas of Expertise

- Product Design
- UX Research & Discovery
- Interaction Design
- Wireframing & Prototyping
- Design Systems
- User Testing & Insights
- Information Architecture
- Usability Analysis
- Human-Centered Design
- Service Design
- System Thinking
- 3D Modelling
- Form Exploration
- Sustainable Approach
- Material Knowledge

Education

HIGH SCHOOL

10th- Podar International School
Powai, Mumbai

12th- India International School,
Mansarovar, Jaipur (PCM)

ONGOING

B.Des CEPT University
2022 - 2027

Latest Sem GPA: 4.8/5

Languages

English (Fluent)

Hindi (Native)

Experience

INDUSTRY COLLABORATION STUDIO

• ZEUX- Designing for Digital Futures

Faculty- Saurabh Gupta &
Harsh Panchal

Project- Dhara (Spring 2026)

Designed an intuitive HMI for Indian farmers to operate agricultural drones with ease. Focused on understanding user needs and creating an accessible, simple experience for first-time and low-tech users.

• FOLEY DESIGN- Secret to Sculpting Products

Faculty- Manas Bharve &
Smith Macwan

Project- Tvacha (Monsoon 2025)

Developed a comprehensive understanding of conceptualizing, designing, and executing technically complex products that balance user needs with technological requirements.

ACADEMIC STUDIOS

• Designing for Phygital Cultures

Faculty- Bhargav Padhiyar

Project- StyleTune, Uni-Play & Recho (Spring 2025)

Built interactive physical computing projects using Arduino and sensors, blending digital and physical experiences through interaction design.

• Humanizing Tech Experiences

Faculty- Nirmith Sehlat

Project- Embrace (Monsoon 2024)

Designed app architecture, service flow, and branding system to create intuitive, user-centric digital experience.

• New Product Development in Sustainable Practice

Faculty- Smith Macwan &
Sadashivan Iyer

Project- Contac (Spring 2024)

Developed innovative and sustainable product with a focus on ecological responsibility. The target users were both visually impaired and sighted people, enabling collaborative and inclusive gameplay together.

• Elements of Form & Space

Faculty- Gaurang Shah

Project- Booktrap & Tri-ssue (Monsoon 2023)

Built aesthetic and perceptual sensibilities through the exploration of form and geometry, while understanding product usability and desirability.

INTERNSHIPS

• Intern at IDC School of design, IIT Bombay (May -July 2026)	Role- Interaction designer under Mr. Anirudha Joshi Worked on a project focused on enhancing the digital banking experience for elderly users with low digital literacy and limited tech exposure.
• 361 Degree Marketing (Dec 2025- Jan 2026)	Role- UI/UX and graphic designer Designed social media creatives, posters, brochures, and website for various brands, gaining experience in visual design and user experience.
• Xfinite (Feb 2025)	Role- Communication designer Contributed remotely to video editing and template design projects, gaining hands-on experience and expanding creative skill sets.
• Rathin Goghari Architects (May- June 2024)	Role- Space and graphic designer Worked on-site, contributing to spatial and graphic design projects for the firm

INTERNATIONAL EXPOSURE | Study visit to Copenhagen and Aarhus, Denmark

• Tales of Denmark- Exploring Danish, Craft - Design Cultures Faculty- Rishav Jain & Jay Thakkar	Project- A Danish Home (Summer 2025) Engaged with local craftspeople and designers and explored museums, gaining insight into how culture, tradition, and innovation shape Danish design.
---	---

Achievements

• Intellectual Property Right (IPR) Holder	Project Tri-ssue is registered and published by the Government of India under the design category name Tissue Holder.
• Nominated for CEPT Studio Excellence Award	Project Contac and Embrace were nominated for excellence by CEPT

Additional Skills

Figma | Framer | Adobe Suite | Procreate | Rhino | Keyshot | AutoCAD | Arduino | Processing | GPT Models | Claude | Stitch AI | Solidworks | Cursor | Replit
